- **Design Tools:** Figma
- **Version Control:** Git, GitHub, GitLab
- **Collaboration:** Agile, Scrum
- **Problem Solving:** Debugging, Performance Optimization
- **Soft Skills:** Team Collaboration, Communication, Time Management

PERSONAL INFORMATION

Date of Birth: June 5, 1992

LANGUAGES- KNOWN

- English
- Hindi

PROFESSIONAL SUMMARY

Dedicated and skilled ReactJS developer with 3 years of experience in building interactive and responsive web applications. Proven ability to deliver robust and efficient solutions that meet client expectations and staying up-to-date with the latest trends and technologies in front-end development.

EXPERIENCE

- ❖ **Absolute Web Services Pvt Ltd, Vadodara**
- ❖ **Sai Web Technology, Jabalpur**

July 2024 to till now
Dec 2020 to June 2024

Software Developer - ReactJS

- Developed and maintained web applications, SPAs and PWAs using ReactJS & Redux ensuring a seamless user experience.
- Fetched and sent data to/from APIs using methods like fetch or Axios. Handle data responses and errors gracefully.
- Implemented React Hooks extensively to manage component state, replacing class components with functional components for improved code readability and maintainability.
- Implemented various screens for the front-end using ReactJS and used various predefined components from NPM (Node Package Manager) and Redux library.
- Integrated RESTful APIs to fetch and display dynamic data.
- Good experience customizing CSS frameworks like Bootstrap, Tailwind CSS.
- Conducted code reviews, unit tests (using Jest), providing constructive feedback to maintain code quality and best practices.

PROJECTS

Project 1: Hanooman AI

Description: The project comprises Artificial General Intelligence (AGI) solutions designed to handle tasks such as text generation, image creation, code writing, voice generation, and document analysis, with support for various languages.

Technologies Used: ReactJS, React Native, Redux-Toolkit, NodeJS

Project 2: Netskill Academy Online Learning and Placement

Description: The Netskill offers Web Development & Programming Certification Courses Online with 100% placement record at 100+ top companies.

Technologies Used: ReactJS, Redux-Toolkit, NodeJS

Project 3: TestRocket – Pre-Employment Screening Tests

Description: Screen, assess, interview and upskill developers and prospective employees using TestRocket.

Technologies Used: ReactJS, Redux-Toolkit, NodeJS

Roles & Responsibilities:

- Building and maintaining reusable UI components using React that are modular, scalable, and responsive. Collaborating with backend teams to integrate APIs.
- Managing application's state effectively using React's state management techniques including Optimizing application performance.

❖ Gurukul PSC, Jabalpur

Nov 2018 to Nov 2020

❖ Gun Carriage Factory, Jabalpur

Oct 2017 to Oct 2018

Worked as an **Apprenticeship Trainee** in one of the Ordnance factories of our country.
