Professional Summary

Seasoned Data Engineer with 6+ years of experience in designing scalable data infrastructures and real-time analytics solutions. Adept in building robust ETL frameworks, implementing data governance, and optimizing SQL queries for performance.

Education

M.Tech in Computer Science, IIT Delhi (2016 - 2018)

Technical Skills

Python, Spark, Kafka, Snowflake, Airflow, AWS, Docker, Kubernetes, SQL

Projects

ETL Framework Modernization – Redesigned legacy ETL workflows into modular, scalable Airflow DAGs, reducing pipeline execution time by 35%.

Data Lake Migration – Migrated 20TB of on-prem data to AWS S3 + Glue Data Catalog, establishing unified data governance and access control.

Analytics Acceleration – Optimized SQL queries and materialized views for Snowflake, improving dashboard response time by 50%.
